

1.5 Systems software - Crossword 2: Utility software

Instructions: Use the definitions to complete the grid. Write answers without spaces, hyphens, slashes or punctuation.

Across

1. Restoring data or a system after a fault or loss.
7. Removing unnecessary files to free storage space.
8. Installing a newer version or fix for software.
9. System software that performs maintenance or support tasks.
10. Utility that detects and removes malicious software.

Down

2. Reducing file size so data takes less storage or transfers faster.
3. Copying files so they can be restored later.
4. Utility or device that controls incoming and outgoing network traffic.
5. Reorganising files on a magnetic disk so parts are stored together.
6. Utility function that makes data unreadable without a key.
